MANUAL INSTALACION MYSQL- WORKBENCH

1. Instalamos el Programa desde el navegador

En nuestro navegador favorito realizamos la búsqueda de descarga de MySQL versión community 8.0.46

2. Seleccionamos el Instalador (MSI)

seleccionaremos el sistema operativo correspondiente

Windows (x86, 64-bit), MSI Installer (mysql-9.7.0-winx64.msi)	9.7.0	174.4M	Download
	MD5: ddbfe2c516b787bfae442a982cd3bd7b Signature		
Windows (x86, 64-bit), ZIP Archive (mysql-9.7.0-winx64.zip)	9.7.0	324.7M	Download
	MD5: 7ca0b76d01e2e86baf7e77df94e1a983 Signature		
Windows (x86, 64-bit), ZIP Archive Debug Binaries & Test Suite (mysql-9.7.0-winx64-debug-test.zip)	9.7.0	807.7M	Download
	MD5: bc4e347716385376b9eb836d8872914a Signature		

3. Empezamos con la descarga

Una vez que nos salga esta pantalla, daremos click a **No thanks, just start my download**. Para iniciar con la descarga.

Login Now or Sign Up for a free account.

An Oracle Web Account provides you with the following advantages:

- Fast access to MySQL software downloads
- Download technical White Papers and Presentations
- Post messages in the MySQL Discussion Forums
- Report and track bugs in the MySQL bug system

for an Oracle Web account

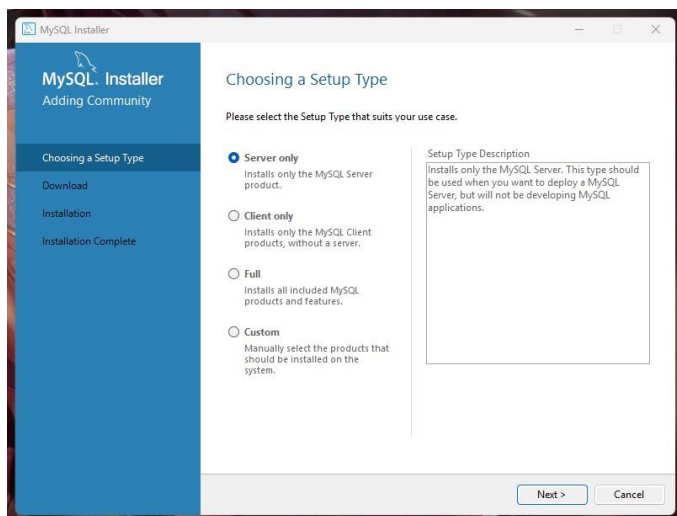

MySQL.com is using Oracle SSO for authentication. If you already have an Oracle Web account, click the Login link. Otherwise, you can signup for a free account by clicking the Sign Up link and following the instructions.

No thanks, just start my download.

4. Configuramos la instalación local

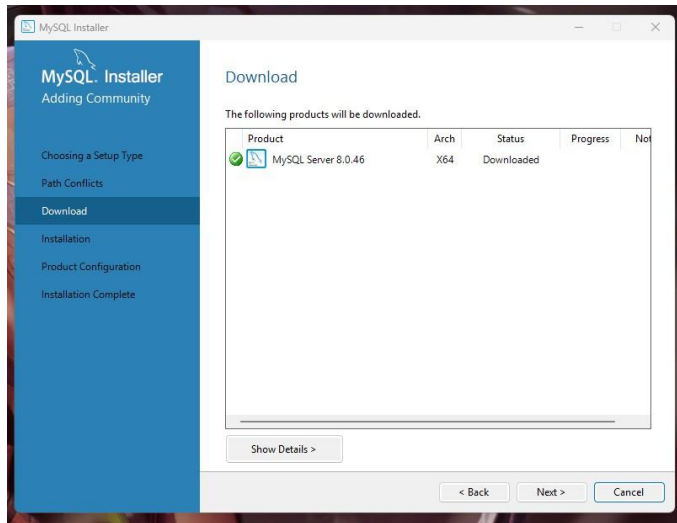

Una vez descargado el instalador en nuestra computadora, ejecutamos y nos aparecerá la siguiente pantalla.

- Seleccionaremos **Server only**, como tipo de configuración

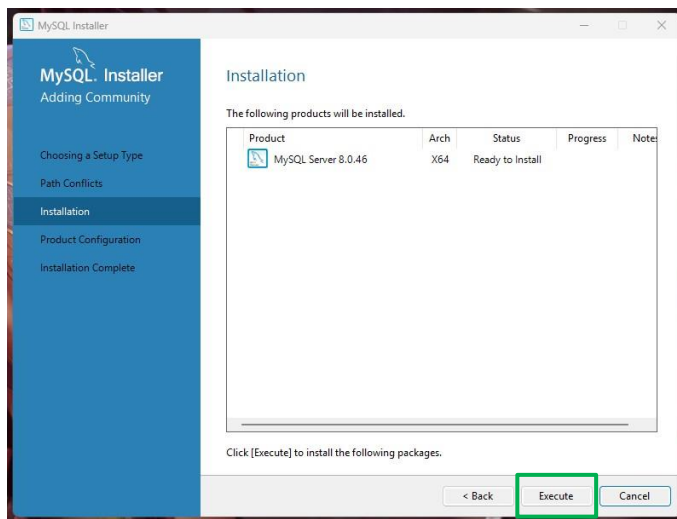

5. Configuramos en el panel de instalación

Aparecerán diversos cuadros de dialogo, mantén la configuración predeterminada y avanza haciendo clic en **Next**.

Una vez que tengamos la pantalla lista de installation le damos en ejecutar

Tendremos que crear un password para acceder a nuestra base de datos de manera local, por default le colodaremos **admin**

Accounts and Roles

Root Account Password

Enter the password for the root account. Please remember to store this password in a secure place.

MySQL Root Password:

Repeat Password:

MySQL User Accounts

Create MySQL user accounts for your users and applications. Assign a role to the user that consists of a set of privileges.

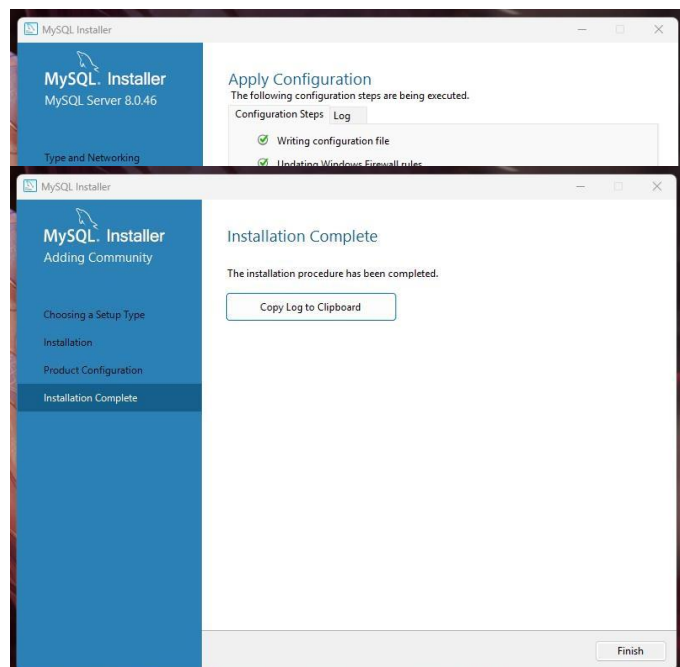

MySQL User Name	Host	User Role
-----------------	------	-----------

[Add User](#)
[Edit User](#)
[Delete](#)

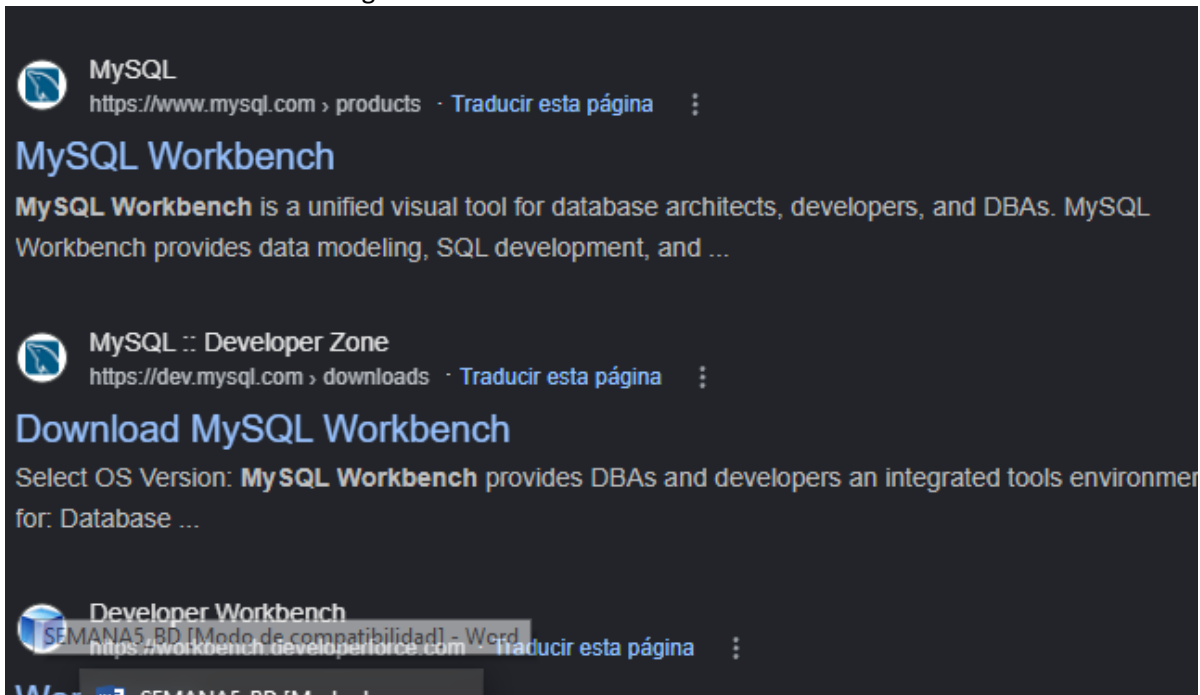

[< Back](#) [Next >](#) [Cancel](#)

Data Directory: C:\ProgramData\MySQL\MySQL Server 9.7\

Una vez que realicemos todo esto ya tendremos listo nuestra configuracion y se aplicara

6. Instalamos la interfaz gráfica WorkBench

The screenshot shows the MySQL Workbench Developer Zone page. At the top, there's a navigation bar with the MySQL logo and the URL <https://www.mysql.com>. Below this, the page title is "MySQL Workbench". The main text describes it as a unified visual tool for database architects, developers, and DBAs. Further down, there's a section titled "Download MySQL Workbench" with the text "Select OS Version: MySQL Workbench provides DBAs and developers an integrated tools environment for: Database ...". At the bottom, there's a link to the "Developer Workbench" page with the URL <https://workbench.developerforce.com>.

Nos aseguramos que estamos instalando la versión 8.0.47 y que el sistema operativo sea Windows

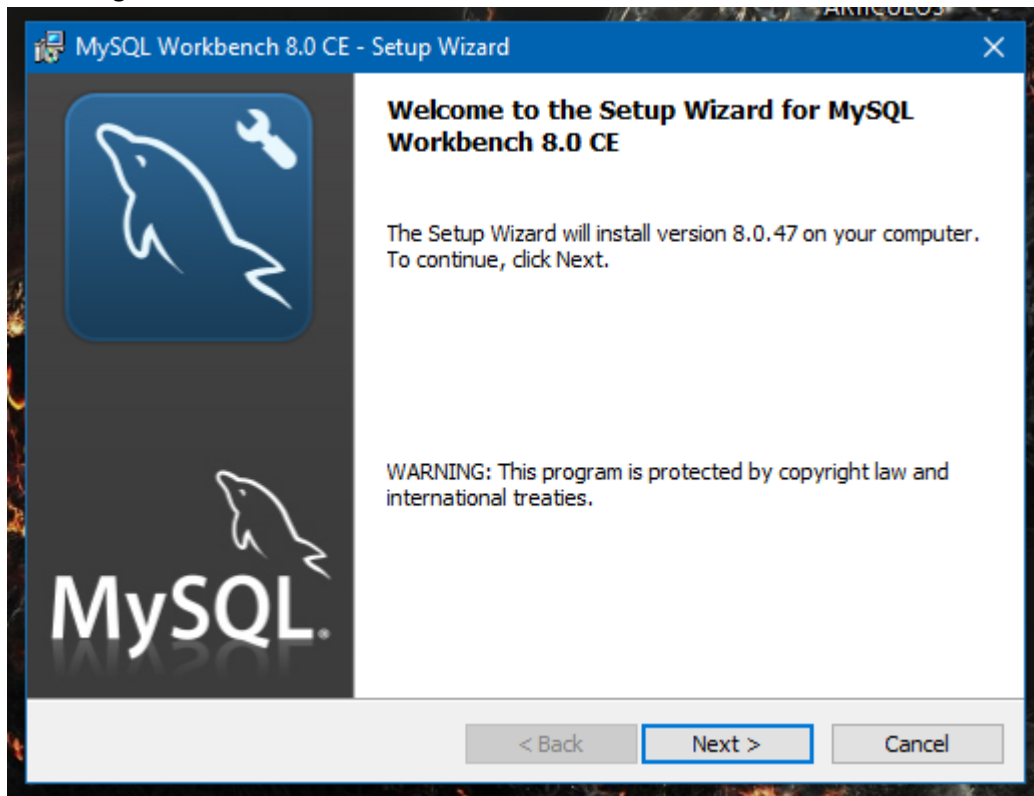

The screenshot shows the MySQL Installer for Windows download page. The main heading is "MySQL Installer for Windows". Below this, it says "All MySQL Products. For All Windows Platforms. In One Package." There's a button labeled "Go to Download Page >". Under the "Other Downloads:" section, there's a table with the following data:

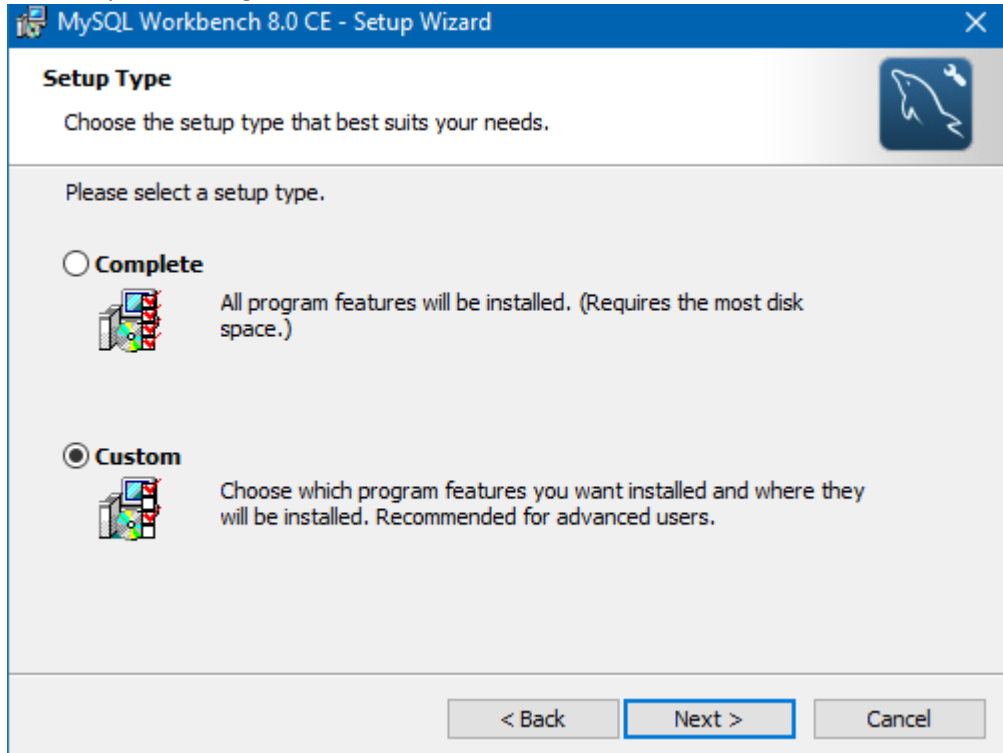

Windows (x86, 64-bit), MSI Installer	8.0.47	255.3M	Download
(mysql-workbench-community-8.0.47-winx64.msi)	MD5: 1078f06dcac442fbef82bc5dbd6c2046	Signature	

Below the table, there's a note: "We suggest that you use the MD5 checksums and GnuPG signatures to verify the integrity of the packages you download."

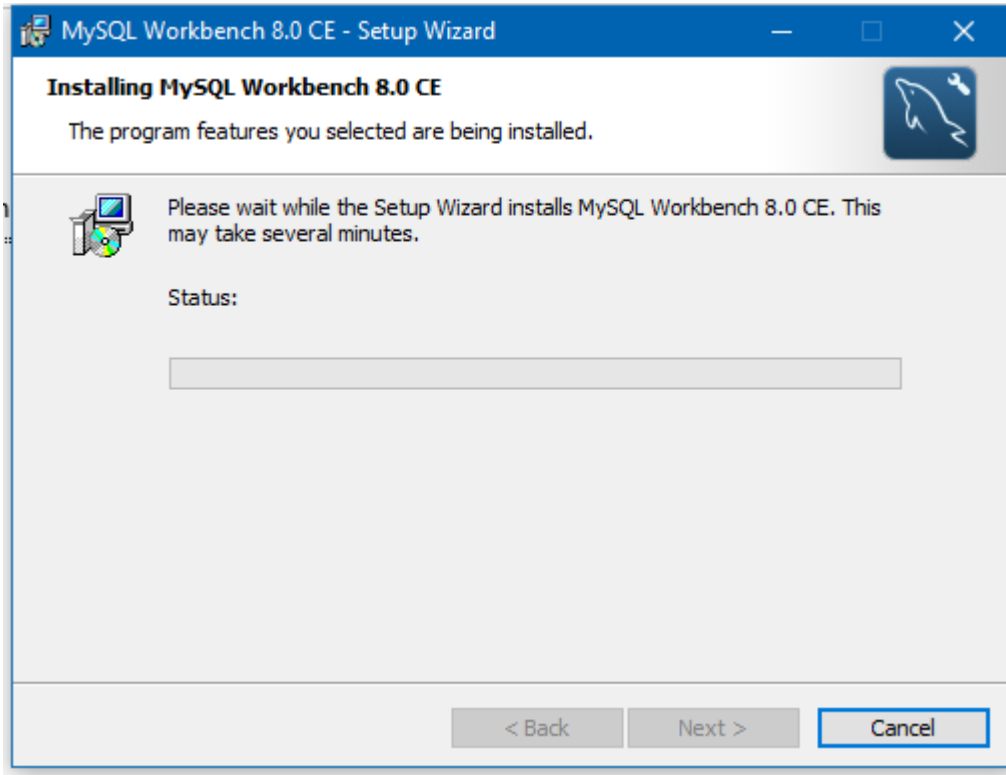

Cuando lo descarguemos tendremos que aceptar los permisos y nos saldrá su cuadro de dialogo

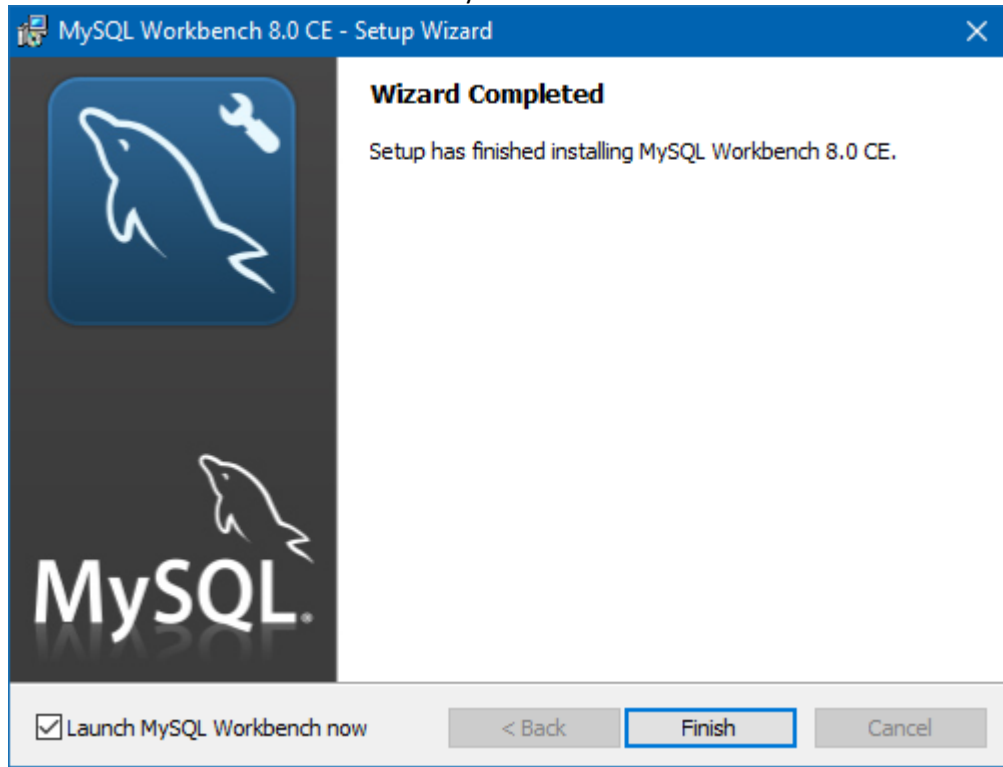

En tipo de configuración usaremos el custom

Continuamos dándole clic en next y así sucesivamente

Continuamos dándole clic en next y así sucesivamente

Finalmente nos aparecerá el MySQL y tendremos que ingresar nuestro password que anteriormente hemos creado

database vendors to your MySQL database.
